Maintaining Fiscal Integrity

- Cut spending when necessary to balance the budget every year
- Planned responsibly for reduced revenues by maintaining 20% budget reserves every year, a larger proportion than any city in the region.

Reducing the Size of Government

- Reduced the number of city employees by contracting out government services to the private sector.
- Avoided long term retirement obligations by maintaining the lowest employee-to-citizen ratio in the region.

Standing up for Pro-Business Policies

- Made Santee the economic engine of East County through quality residential, commercial and retail development.

Putting Public Safety First

- Placed highest priority on funding public safety services, resulting in the lowest crime rate in the region.
