

Had Enough? — So have I

“As Republicans, we shouldn’t be fighting amongst ourselves.

We should be working in unity to restore California to its former greatness.”

— Brian Jones

I’ve proven in Santee that conservative government principles work, and they can work in Sacramento too.

BRIAN JONES
ASSEMBLY

Dear East County Neighbor:

Like you, I've had enough with the negative campaigning.

For Republicans to be effective in Sacramento, we must stand together united by the conservative values that made this country great—the same principles which can make California great once again.

I am asking for your vote because I am the most experienced and qualified candidate running for the 77th Assembly seat.

My record in Santee speaks for itself. No other candidate in this race can point to a proven track record of fighting taxes, shrinking the size of government, balancing a budget, reigning in employee costs, maintaining public safety and promoting economic development. I am the only candidate that has made those tough decisions for the last eight years. And I think you will agree the proof is in the results.

I'll bring these same conservative government principles to Sacramento!

If you are tired of politicians tearing each other down, please support me for State Assembly. Together we can build a unified and effective Republican Party, built on a foundation of proven conservative principles that will return the luster to our Golden State.

Sincerely,

BRIAN W. JONES
Vice Mayor, City of Santee

Don't believe the smears. Brian Jones is the ONLY candidate with a PROVEN conservative track record

No Sales Tax Increases

Santee is the only East County city to refuse calls for a higher sales tax.

Smaller Government

Smallest number of employees per citizen. Lowest public employee pension and benefit obligations. Contracts out services to the private sector.

Less Government Spending

Lowest per citizen spending. NO budget deficits. Maintains largest budget reserves of any local city. Public safety comprises over 60% of the budget. Annual zero based budgeting.

Business Friendly

Lowered taxes and fees to promote jobs and economic growth—policies which have made Santee "the economic engine of East County."
