Christine Rubin

The Republican Choice for State Assembly

Christine's Checklist for a Better California

- Immediate freeze of state government hiring.
- Cut State Income Taxes 10% and protect Proposition 13.
- Top down audit of all state government agencies to root out waste and inefficiency.
- Repeal Global Warming/Job Killer legislation backed by liberal Democrats.
- Return to a part-time legislature.

Christine Rubin

Respected and Endorsed by Republican Leaders

Christine Rubin has a solid record of accomplishment as a college professor, small business owner and conservative leader. That is why Republican leaders across San Diego County support Christine for State Assembly.

California was recently named the worst place in America to start a business. In only one state, Hawaii, do residents pay more in state income taxes than California. Our state's bond rating has plummeted to near junk levels which will cost taxpayers millions of dollars more in higher interest rate payments.

Christine Rubin is the right leader for tough times.

Christine knows that California's recovery lays in fiscal responsibility. She proposes **freezing all government hiring, reducing taxes for working families**, and repealing legislation that prevents small businesses from starting and growing in California.

Christine also feels that the legislature needs to be made a part-time body. "Cut their pay and send them home" is how she puts it.
